FULL PROPOSAL APPLICATION LETTER

Sub-Grants for enhanced tourism service-delivery and local economic impact (innovation and linkages grants)

Date: _____

To: Project Implementation Unit-LRCP Project

Having examined the Invitation Letter for Full Proposals and Instructions for submission of the Sub-Grant proposal under LRCP, we would like to submit with this letter our proposal to LRCP:

Sub-project basic information:		
1.	Proposed Sub-Grant amount (in mkd ¹):	
2.	Proposed co-financing amount (in mkd):	
3.	Percentage of our contribution from requested sub-grant:	
4.	Total Sub-Project proposal amount (1+2):	

Table 1. Sub-project basic info:

Should our proposal be selected, we are committed to implementing the proposal in adherence to the proposed contents and in compliance with the provisions set forth under the Sub-Grant Agreement. We also agree to submit all required documentation prior to the signature of sub-grant agreement. In case we don't submit all the necessary documentation as required, our Sub-Grant proposal will be disqualified from financing. We are aware and we have informed our partners, that if our institution is applying with several sub-projects (*as lead or as partner*), LRCP can only finance our institution once per a call, regardless whether we are applying as a partner or as a lead applicant.

We, the undersigned, certify that to the best of our knowledge and belief, all information contained in the proposal is true and correct. Any information, if found to be incorrect, wrong or misleading, may lead to our disqualification from the application and selection in accordance with LRCP project's regulations.

Table 5. Basic information about the subproject

Please select the type of gap that the proposed sub-project is addressing:

A) non-destination-specific gaps (identified and described in the Tourism Development Plans specifically Volume II, chapter 2). They are also referred to as cross-destination gaps, occur across multiple destinations and at the national level, and include:

- Gap 1 Limited Service Culture
- Gap 2 Lack of guiding capacity and skills
- Gap 3 Inconsistent waste collection and waste management culture
- Gap 4 Limited online marketing and communication
- Gap 5 Lack of signage and roadside information
- Gap 6 Limited roadside visitor infrastructure

or

B) destination- specific gaps (identified and described in the Tourism Development Plans for each of the ten destinations) are identified for each destination in the following categories:

- Gap 1 Accommodation and Hospitality
- Gap 2 Activities and Experiences
- Gap 3 Attractions
- Gap 4 Capacity Building
- Gap 5 Marketing, branding and access to information
- Gap 6 Accesibility and infrastructure

Destinations

- A) non-destination specific gaps** - ten destinations have been identified as the areas with strong potential for tourism development in the country.³ Sub-Projects addressing non-destination specific gaps may address multiple destinations or may be national. In case you're applying for A) non-destination specific gaps, in table 6, please mark the destinations⁴ where the sub-project will be implemented. If it is national, please indicate that.

Destination/s where the sub-project will be implemented										
National	Destination 1	Destination 2	Destination 3	Destination 4	Destination 5	Destination 6	Destination 7	Destination 8	Destination 9	Destination 10

2. RELEVANCE

In this section please provide detail description of the proposed sub-project. You should clearly explain the purpose of the proposed sub-project and explicitly specify and explain all envisioned activities and how they are aligned to the objective of the call. The specified description of activities must correspond with the provided technical documentation and be aligned with the Environmental Assessment reports (ESIA, ESMP and ESPM checklist).

Development Plans
<ol style="list-style-type: none"> 1. Describe the main problems/issues the sub-project will address; (Description of the current situation) 2. The overall goal of the proposed sub-project; 3. Describe the gap/s (either non-destination specific or destination specific from Tourism Development Plans) the sub-project is addressing; 4. Clearly specify the sub-project activities and explain how they will meet the specific gap/s in development plan; <ol style="list-style-type: none"> a. For non-specific gaps, please explain whether the Sub-project has multi destination impact. b. For specific gaps, please explain how the sub-project will contribute towards attracting the priority market segments 5. Describe whether you will directly or indirectly improve the experience of any of the priority market segments described in the specific development plan and how? Who are the likely users of the facility/service/site? 6. List the expected results. <p><i>Maximum 1500 words</i></p>
Table 12: Development Plans

Technical Soundness- Please, make sure that the provided technical documentation is aligned with the Environmental Assessment reports (ESIA, ESMP and ESPM checklist).
<p>The overall quality of the project should be presented, its impact and target group with an estimate of the anticipated direct and indirect beneficiaries. The plan of activities should be clearly defined with assigned resources to fulfill each of the listed activity, expected results and timeline. You should show a logical flow of activities, indicating that all the things that must happen have been carefully thought through from the current to the end of project.</p> <p><i>Maximum 1200 words</i></p>

PROPOSAL IMPLEMENTATION PLAN

The duration of the activities will be max 12 months for this type of grants.

*Applicants are recommended to base the estimated duration for each activity and total period on the **most probable duration** and not on the shortest possible duration by taking into consideration all relevant factors that may affect the implementation timetable.*

*The activities stated in the implementation plan should correspond to the activities described in application. Any months or interim periods without activities must be included in the action plan and count toward the calculation of the total estimated duration of the action. The implementation plan should be **sufficiently detailed** to give an overview of each activity. Please select specific and measurable indicators which help capture the achievement of project results. These indicators will form the basis for monitoring and evaluation.*

3. SUB-PROJECT EXPECTED IMPACTS

Destination impact
Please clearly explain what will be the destination impact in tourism from the proposed sub-project. Please, present what are the expected destination outcomes from the implementation of the proposed sub-projects and how they will contribute towards the overall goals of the destination (s) as defined in the development plans. (max 500 words)
Tabela 15. Destination impact

Sub-project expected outcomes	
Increased tourist spends	Explain if your sub-project and the proposed activities will lead towards increased tourist spent. If yes, please explain how you plan to achieve this.
Increased number of tourists	Explain whether your sub-project with the proposed activities from the implementation table will lead towards increased number of tourists. If yes, please explain how and provide an estimated number (both direct and indirect)
Business Linkages	Explain in details how do you intend to stimulate business linkages in the destination and provide spillover effect (enhanced business cooperation, transfer of technology, knowledge, skills, improving business-management practices)
Innovation	Explain to what extent this proposal is innovative?
Job creation	Describe if your sub-project proposal will create new jobs (please list all type of expected new jobs: part time, full time, seasonal)

Detailed Budget Proposal

The below presented budget template and its components is presented in excel and it is intended to serve as a sample to assist you in writing the detailed budget proposal. Please, add any additional cost items that are necessary for sub-project implementation and please provide justification each cost element. It is of your best interest to provide realistic and cost-effective budget with unit prices that are based on the realistic market prices. Once you have filled in all the data in the sheets, please insert the tables below.

5. SUSTAINABILITY

Sustainability
<p>Please describe how you intend to maintain the sustainability of the sub-project results after the end of the project. Specifically, explain how you intend to store knowledge gained and how this knowledge will be replicated (if applicable). Depending upon the proposed activity, please define the on-going management, staffing and maintenance of the project after the grant disbursement is completed. Sustainability plan should be clear, concise and realistic. (max. 1000 words)</p>

SECTION 5: ENVIRONMENTAL MANAGEMENT DOCUMENTATION

5.1 Template for Environmental Management Plan

A sub-project's environmental management plan (EMP) consists of the set of mitigation, monitoring, and institutional measures to be taken during implementation and operation to eliminate adverse environmental and social impacts, offset them, or reduce them to acceptable levels. The plan also includes the actions needed to implement these measures.

Management plans are essential elements of EA reports for Category A projects; for many Category B projects the EA may result in a management plan only. To prepare a management plan, the recipient and its EA design team (a) identify the set of responses to potentially adverse impacts; (b) determine requirements for ensuring that those responses are made effectively and in a timely manner; and (c) describe the means for meeting those requirements.

More specifically, the EMP includes the following components:

Mitigation

The EMP identifies feasible and cost-effective measures that may reduce potentially significant adverse environmental impacts to acceptable levels. The plan includes compensatory measures if mitigation measures are not feasible, cost-effective, or sufficient. Specifically, the EMP;

- (a) Identifies and summarizes all anticipated significant adverse environmental impacts (including those involving indigenous people or involuntary resettlement);
- (b) Describes with technical details each mitigation measure, including the type of impact to which it relates and the conditions under which it is required (e.g., continuously or in the event of contingencies), together with designs, equipment descriptions, and operating procedures, as appropriate;
- (c) Estimates any potential environmental impacts of these measures; and
- (d) Provides linkage with any other mitigation plans (e.g., for involuntary resettlement, indigenous peoples, or cultural property) required for the project.

Monitoring

Environmental monitoring during project implementation provides information about key environmental aspects of the project, particularly the environmental impacts of the project and the effectiveness of mitigation measures. Such information enables the recipient and the Bank to evaluate the success of mitigation as part of project supervision and allows corrective action to be taken when needed. Therefore, the EMP identifies monitoring objectives and specifies the type of monitoring, with linkages to the impacts assessed in the EA report and the mitigation measures described in the EMP. Specifically, the monitoring section of the EMP provides (a) a specific description, and technical details, of monitoring measures, including the parameters to be measured, methods to be used, sampling locations, frequency of measurements, detection

limits (where appropriate), and definition of thresholds that will signal the need for corrective actions; and (b) monitoring and reporting procedures to (i) ensure early detection of conditions that necessitate particular mitigation measures, and (ii) furnish information on the progress and results of mitigation.

Implementation Schedule and Cost Estimates

For all three aspects (mitigation, monitoring, and capacity development), the EMP provides (a) an implementation schedule for measures that must be carried out as part of the project, showing phasing and coordination with overall project implementation plans; and (b) the capital and recurrent cost estimates and sources of funds for implementing the EMP. These figures are also integrated into the total project cost tables.

5.2 Environmental Management Plan checklist template

The checklist is composed from the textual part and the table format. The textual part should contain (organized as chapters):

- a) short introduction to the sub-project
- b) overview of impacts
- c) elaborated purpose of EMP Checklist, disclosure requirements
- d) elaborated application of EMP Checklist,
- e) description of monitoring and reporting procedures and distribution of responsibility

The table part of the EMP Checklist contains of three sections that should be developed in the EMF:

- Part 1 constitutes a descriptive part that describes the sub-project specifics in terms of physical location, the institutional and legislative aspects, the project description, inclusive of the need for a capacity building program and description of the public consultation process. This section could be up to two pages long. Attachments for additional information can be supplemented if needed (see Part 1 below).
- Part 2 includes the environmental and social screening in a simple Yes/No format followed by mitigation measures for any given activity. If any of given actions/problems are marked “yes”, a reference to the corresponding part of the Framework Environmental Management Plan with explicitly formulated environmental management measures and impact mitigation measures appears (see Part 2 below).
- Part 3 is a monitoring plan for activities during project construction and implementation. It retains the same format required for standard World Bank EMPs. It is the intention of this checklist that Part 2 and Part 3 be included as bidding documents for contractors which are evaluated in accordance with the proposed prices and along with this that a reasonable control be provided in process of works (see Part 3 below).

ANNEXES

EMP Checklist Annex 1: Site information (figures from the site)

EMP Checklist Annex 2 includes the capacity building information

** Project management includes a) investor and b) the contractor; i.e. the persons responsible for ordering and implementing the works encompassed by the EMP Checklist*

***The Contractor Supervision is done on two levels as well: a) state or county inspectorate with their regular mandate to supervise all construction works and b) supervising engineer, in charge for the particular site. Supervising engineer can be a licensed person (for larger works) or a person authorized by the investor to carry out the supervision, i.e. someone who is checking that the construction / rehabilitation is being done according to the design and is reporting to the investor. This is usually also the person who also supervises the implementation of EMP Checklist and provides compliance reports.*
